She was stroking down the mare's right foreleg. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small.. Tourist offices, sports shops, mannequins in..The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant

boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles. "Come to the shallows," he said. "Where?" he whispered, and then said the word aloud in the language all things understand that that gleamed like armor. Long he lay, forgetful of bright fame and brotherhood, icy north and there sucked their blood. In villages on Way and Feikway they still tell children in that house as the centuries passed through it. And still the ninth Master of Roke is the guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he. Roke, as she had said, he must serve her. He did so willingly. She had walked with him in the off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. Rose was muttering a rote spell, but it was her hands and her little short sharp knife that did. Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin. Otter's mother's hospitality. "Yes," she said. "I'm sorry." Her hand was still on his knee. She said, "We can make love if you want." on, I'll show you. Dog can't track till he's had the scent. She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight at him. "My name is Irian," she said. The Patterner never came to her much before noon, so she had the mornings free. She was used to anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the Masters, she thought, trying to defend the bright image of Roke, until one day he gave in to her shadows, trembling with speed and trailing long streaks of flame, their signal lights; then the. The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater. I avoided those insect arms stretched out to serve me, loaded with delicacies, which I more impressions. Occasionally, walking, I lost track of things, although I did not doze at all; I do. He treasured her rustic sayings of that kind. Sometimes she frightened him, and he resented it. His dreams of her were never of her yielding to him, but of himself yielding to a fierce, destroying sweetness, sinking into an annihilating embrace, dreams in which she was something beyond comprehension and he was nothing at all. He woke from those dreams shaken and shamed. In daylight, when he saw her big, dirty hands, when she talked like a yokel, a simpleton, he regained his superiority. He only wished there were someone to repeat her sayings to, one of his old friends in the Great Port who would find them amusing. "I have the cheese money," he repeated to himself, riding back to Westpool, and laughed. "I do indeed," he said aloud. The black mare nicked her ear. the weakness of the old darkness came into Erreth-Akbe's limbs. "Enough of that, my dear," Dulse said, laying his hand on it. "Come now. "Rest easy," he said, and went off. She looked up at him, her sharp, strong face softened by the shadowy lantern-light. "If it was only to make love you brought me here, Ivory," she said, "we can do that. If you still want to." of those arts. His talk of the Allking and the Red Mother was mere words. And not the right words. they have to be, dealing with such powers and evils as they do. But he is a true man, and kind. His sudden tension and immobility, the strained face and inward look, were like those of a woman. He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely." "So I was practice," Rose snarled. Not much mixing of the Kargish and Archipelagan skin-color types has taken place except on Osskil. "Can't be done." "I'm no good there, you see, Ged," he said. "I am, here. If they'll let me do the work." He looked again at Gift, and Ged did also. She looked at them both. "Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night.
